

MOCA 2.0® QUALITY IMPROVEMENT (QI) ACTIVITIES

Choose activities from the list below to earn 25 points every five years, for a total of 50 points over 10 years.

You'll report the time spent on each activity you complete in your portal account. You no longer need to upload templates or documentation. All self-reported activities are subject to audit for eight weeks after submission. Documentation may be requested if you are audited. If you have questions about whether an activity is eligible for credit, email us at moca@theaba.org.

Table with 3 columns: QI Activity Categories, Points per Hour, and Max Points in 5 Years. It lists five activity categories with their respective point values and maximum 5-year totals.

<p>Quality improvement plan to improve patient outcomes based on feedback from one of the following:</p> <ul style="list-style-type: none"> • Quality data registries • Joint Commission’s Focused Professional Practice Evaluation (FPPE) process • Joint Commission’s Ongoing Professional Practice Evaluation (OPPE) process • 360 professional reviews • Patient experience of care surveys • ASA’s Understanding the Relationship between Intraoperative Hypotension and Clinical Outcomes in Surgical Patients • ASA's Cases from the Perioperative Surgical Home: A Journey to Improve Quality and Patient Safety Part 1: New Hanover Regional Medical Center • ASA’s Cases from the Perioperative Surgical Home: A Journey to Improve Quality and Patient Safety Part 2 • ASA's Cases from the Perioperative Surgical Home: A Journey to Improve Quality and Patient Safety - Part 3 • ASA's Continued Need for Neuromuscular Block Monitoring: A Journey to Improve Patient Safety and Patient Outcomes • ASA's Real World Experiences in Neuromuscular Blockade and Its Reversal: Case Studies from Various Practice Settings • ASA's Cases from the Perioperative Surgical Home: Transitioning the PSH to a Health System • ASA's Cases from the Perioperative Surgical Home: Dealing with Adversity by Focusing on Different Service Lines • ASA's Cases from the Perioperative Surgical Home: Scaling your PSH Clinical Operations Across Multiple Healthcare Facilities • Cases from the Perioperative Surgical Home - Perspectives on PSH: Implementation in an Academic Medical Center Part 5 • Neuromuscular Blockade in the Ambulatory Setting: Safe Practices • ACGME Program Evaluation and Improvement • intubateCOVID (COVID-19 activity) 	1	25
